

Dominic Boban

Ealing, London | dominic457@outlook.com | LinkedIn | GitHub

PROFILE

Penetration Tester with over two years of experience enhancing cybersecurity measures through penetration testing, SIEM monitoring, CVE automation, vulnerability detection, dark web monitoring, and threat intelligence gathering.

TECHNICAL SKILLS

Tools	Splunk, ELK, Wazuh, Burp Suite, Metasploit, Nmap, Wireshark, OpenVAS, Nikto, sqlmap, BloodHound
Cloud & DevSecOps	AWS EC2, AWS S3, Azure Active Directory, Docker, Terraform reviews
Scripting	Python, Bash, PowerShell, SQL
Frameworks	OWASP Top 10, PTES, NIST SP 800-115, MITRE ATT&CK;
Testing Areas	Web application security, API security, network infrastructure, Active Directory, container security, vulnerability management, dark web monitoring

EMPLOYMENT HISTORY

Jul 2025 - Present | Cyber Security Penetration Tester, Baseel Partners, London

- ? Perform penetration tests and vulnerability assessments of web applications, networks, and infrastructure.
- ? Develop automated SOC monitoring, CVE scraping, and vulnerability detection pipelines.
- ? Integrate findings into Splunk, ELK, and Wazuh while supporting detection strategy improvements.
- ? Conduct OSINT and dark web monitoring to identify exposed credentials, assets, and external indicators.
- ? Generate technical reports and executive summaries with actionable remediation guidance.

Jun 2022 - Jul 2025 | Supervisor, Amorino, Knightsbridge

- ? Progressed from Sales Assistant to Supervisor while studying.
- ? Led staff training, shifts, reporting, scheduling, inventory, and multicultural team performance.

Oct 2021 - Jan 2022 | SOC Level 1 Intern, Sycuris Labs, Bengaluru

- ? Monitored SIEM dashboards for suspicious logins, malware indicators, and anomalous traffic.
- ? Performed L1 triage, IOC enrichment, log analysis, and escalation notes.
- ? Automated recurring log parsing and IOC lookups with Python and Bash.

EDUCATION

Bachelor of Cyber Security, University of West London, London | Feb 2022 - Feb 2024

Computing, Kings Cornerstone International College, Chennai | Jul 2019 - Sept 2021

KEY ACHIEVEMENTS

- ? Top 800 Hack The Box global ranking for penetration testing and cybersecurity challenges.
- ? Microsoft Hall of Fame recognition for security-focused cloud framework contributions.
- ? Developed automated CVE scraping tools for proactive vulnerability detection.
- ? Designed dark web monitoring tools to identify leaked credentials and sensitive data exposure.
- ? Enhanced threat detection pipelines by connecting offensive findings with SOC workflows.

CERTIFICATIONS

- ? CCPENT - In Progress, EC-Council, Jan 2026
- ? Certified Cyber Security Technician, EC-Council, Dec 2024
- ? SOC Level 1, Personal Tutor, Dec 2024
- ? Certified Red Team Associate, Red Team Hacker Academy, Aug 2023
- ? Certified Penetration Tester, Red Team Hacker Academy, Oct 2023
